## **Kosan Gas Finland Oy acquires Finnish LPG company GasOne Oy**

**Kosan Gas, one of the Nordic region's leading LPG companies, is now expanding its business with the acquisition of GasOne Oy in Finland. It's return to the cylinder market makes it one of the leading companies supplying both bulk and cylinder LPG across Finland.**

Nordic LPG company Kosan Gas is expanding its business through a strategic acquisition in Finland. The acquired company, GasOne supplies cylinder gas to B2B customers and numerous dealers and retailers across Finland. Demonstrating its commitment to the LPG industry, the acquisition strengthens its existing position on the Finnish B2B market and returns to the retail market after 54 years.

Today, Kosan Gas supplies cylinder gas to more than 1,500 dealers in Denmark and has more than 5,000 B2B customers across the Nordic region, including Finland. With the acquisition of GasOne, Kosan Gas also becomes one of the leading LPG suppliers delivering both cylinder and bulk gas across the country.

Kosan Gas has more than 90 years of experience in LPG. Part of the global energy company UGI Corporation and its subsidiary UGI International, it draws on its global network to ensure customers benefit from Kosan's high quality products, strong customer service, security of supply and commitment to help customers in the green transition.

### **Kosan Gas**

Kosan Gas is one of the leading distributors of LPG in the Nordics. With companies in four countries Kosan Gas supplies more than 5.000 business customers in the Nordics. Kosan Gas has since 2010 been an UGI International subsidiary. UGI International is one of the leading LPG distributors and a UGI Corporation subsidiary which operates in 17 European countries servicing a customer base of approximately 615.000 end-users. UGI International employs several brands such as AmeriGas, Antargaz, AvantiGas, DVEP Energie, Flaga, Kosan Gas and UniverGas. In 2020 UGI International serviced customers across broad markets – such as commercial & industrial, residential, agriculture, Autogas and aerosol, with 1.7 million tons of LPG.
